

**Pro-Forma for Display of Information on the College Website**

The Following Details are mandatory to be filled up by the Medical College and displayed on their website (once entered should be updated without removal of data)

S No.	<b>Information of the medical college/institution</b> <b>Year of Inception :</b> <b>Government/private:</b>	2001 Private
1.	Name	<b>Mahatma Gandhi Medical College and Hospital</b>
2.	Address with pin code	RIICO Institutional Area, Sitapura, Jaipur-302022 (Rajasthan)
3.	University address with pin code	<b>Mahatma Gandhi University of Medical Sciences &amp; Technology</b> RIICO Institutional Area, Sitapura, Jaipur-302022 (Rajasthan)
4.	Official website	<a href="http://www.mgmch.org">www.mgmch.org</a>
5.	Dean/ Principal/ Director	Dr. Swati Garg
6.	Mobile Number	9414048000
7.	Email ID of Dean	<a href="mailto:principal.medical@mgumst.org">principal.medical@mgumst.org</a>
8.	Hospital	<b>Mahatma Gandhi Hospital</b>
9	Date and Year of Registration of the Hospital (DD/MM/YYYY)	08.01.2021 Dept. of Medical & Health, Govt. of Rajasthan
10.	Number of Beds	1140
11.	Number of Beds for emergency	30
12.	Date of the First Letter of Permission (LoP)of MBBS (DD/MM/YYYY) & number of seats	24 <sup>th</sup> August 2001 100 Seats
13.	Status of Recognition	150 Seats Recognition on 27 <sup>th</sup> February, 2015 Continuation of Recognition – NMC/UGR/2020/014534 dt. 15.07.2021
14.	Number of MBBS and PG broad specialty and super specialty students admitted in this session*	MBBS : 150 (Batch 2020-21) MD/MS : 125 (Batch 2020-21) DM/MCh : 24 (Batch 2020-21)
15.	Inpatients registered and admitted (01.01.2021- 31.12.2021)**	2021 : 73716 ( <b>Jan 2021 to 15<sup>th</sup> December 2021</b> ) 2020 : 37474 2019 : 70210
16.	Outpatients registered (01.01.2021-31.12.2021)**	2021 : 769448 ( <b>Jan 2021 to 15<sup>th</sup> December 2021</b> ) 2020 : 452696 2019 : 765213
17.	Number of Deaths reported to the Municipality/ village register	2021 : 1423 ( <b>Jan 2021 to 15<sup>th</sup> December 2021</b> ) 2020 : 969 2019 : 876
18.	Address and pin code of the Corporation/village where the Death records are reported	Office of Deputy Commissioner Jagatpura Zone, Nagar Nigam Greater – Jaipur Near Nandpuri Underpass, Jagatpur, Jaipur -302017
19.	Website link/ email ID/ hyperlink of the corporation in case Death Records are reported	Email ID – <a href="mailto:dcjagatpurajmg@gmail.com">dcjagatpurajmg@gmail.com</a>
20.	Number of Births reported	2021 : 1455( <b>Jan 2021 to 15<sup>th</sup> December 2021</b> ) 2020 : 1462 2019 : 3065
21.	Address and pin code of the Corporation/village where the Birth records are reported	Office of Deputy Commissioner Jagatpura Zone, Nagar Nigam Greater – Jaipur Near Nandpuri Underpass, Jagatpur, Jaipur-302017
22.	Website link/ email ID/ hyperlink of the corporation in case Birth Records are reported	Email ID – <a href="mailto:dcjagatpurajmg@gmail.com">dcjagatpurajmg@gmail.com</a>
23.	Number of Rooms in Men's Hostel and students accommodated	No. of Rooms : 285 Capacity : 570 (241 on Roll Students)
24.	Total Number of Rooms in Women's Hostel and students accommodated	No. of Rooms : 280 Capacity : 560 (354 on Roll Students)
25.	Name of the Grievance Redressal Officer (PIO & CPIO):	Dr. Nikhil Marwah Member Secretary, Institutional Grievance Committee
26.	Address with Pin code	RIICO Institutional Area, Sitapura, Jaipur-302022

		(Rajasthan)
27.	Telephone Number E-mail Id	9799572999, Email ID : <a href="mailto:drnikhil@mgumst.org">drnikhil@mgumst.org</a>
28.	Grievances reported	2021 : 06 2020 : 05 2019 : 03

#### 29. Details of Post- Graduation Courses offered

Post- Graduate Course	Year of Commencement of the Course	Number of Students Currently Pursuing the Course (Batch 2019 & 2020)	Number of Students admitted in the Current Session (Batch 2020)
Anatomy	2009	-	-
Biochemistry	2009	-	-
Pathology	2009	15	10
Microbiology	2009	-	-
Community Medicine	2009	01	01
ENT	2009	08	04
Ophthalmology	2009	07	05
General Medicine	2009	32	23

Sciences & Research Centre, Jaipur 23/07/2018 to 21/10/2020	Associate Professor JNU Inst. for Med. Sciences & Research Centre, Jaipur 23/07/2018 to 21/10/2020	Associate Professor JNU Inst. for Med. Sciences & Research Centre, Jaipur 23/07/2018 to 21/10/2020	Professor, MGMCH, Jaipur from 20/01/2021 to Continued	<p>1. Describe the structure and functions of a mammalian cell Describe and discuss the principles of homeostasis</p> <p>2. Describe the structure and functions of a mammalian cell Describe and discuss the</p>

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
				from 01/06/2017 to 20/07/2018					principles of homeostasis 3. Describe intercellular communication Describe apoptosis – programmed cell death 4. Describe intercellular communication Describe apoptosis – programmed cell death 5. Describe and discuss transport mechanisms across cell membranes. Describe the fluid compartments of the body, its ionic composition & measurements, 6. Describe and discuss transport mechanisms across cell membranes. Describe the fluid compartments of the body, its ionic composition & measurements, 7. Describe and discuss the molecular basis of resting membrane potential and action potential in excitable tissue 8. Describe and discuss the molecular basis of resting membrane potential and action potential in excitable tissue 9. Describe and discuss the molecular basis of resting membrane potential and action potential in excitable tissue 10. Describe and discuss the molecular basis of resting membrane potential and action potential in excitable tissue 11. Describe and discuss structure and functions of autonomic nervous system (ANS) 12. Describe and discuss structure and functions of autonomic nervous system (ANS) 13. Describe and discuss structure and functions of autonomic nervous system (ANS) 14. Describe the functional anatomy of respiratory tract

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
									15. Describe the mechanics of normal respiration, pressure changes during ventilation, lung volume and capacities. 16. Describe the mechanics of normal respiration, pressure changes during ventilation, lung volume and capacities. 17. Describe the alveolar surface tension, compliance, airway resistance. 18. Describe the V/P ratio, diffusion capacity of lungs. 19. Describe and discuss the transport of respiratory gases: Oxygen and Carbon dioxide 20. Describe and discuss the transport of respiratory gases: Oxygen and Carbon dioxide 21. Describe and discuss the physiology of high altitude 22. Describe and discuss the physiology of deep sea diving 23. Describe and discuss the principles of artificial respiration, oxygen therapy. 24. Describe and discuss the principles of acclimatization and decompression sickness. 25. Describe & Differentiate the mechanism of action of steroid, protein and amine hormones 26. Describe & Differentiate the mechanism of action of steroid, protein and amine hormones 27. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of pituitary gland 28. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of pituitary gland 29. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
									<p>(hypo and hyper) secretion of pituitary gland</p> <p>30. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of pituitary gland</p> <p>31. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of adrenal gland</p> <p>32. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of adrenal gland</p> <p>33. Describe the physiology of Thymus &amp; Pineal Gland</p> <p>34. Describe and discuss behavioural and EEG characteristics during sleep and mechanism responsible for its production</p> <p>35. Describe and discuss behavioural and EEG characteristics during sleep and mechanism responsible for its production</p> <p>36. Describe and discuss the physiological basis of speech, cerebrospinal fluid (C.S.F)</p> <p>37. Describe the metabolic and endocrine consequences of obesity &amp; metabolic syndrome, Stress response. Outline the psychiatry component pertaining to metabolic syndrome.</p> <p>38. Describe the metabolic and endocrine consequences of obesity &amp; metabolic syndrome, Stress response. Outline the psychiatry component pertaining to metabolic syndrome.</p> <p>39. Discuss the events occurring during the cardiac cycle, cardiac output and blood pressure</p> <p>40. Discuss arrhythmias, heart block and myocardial infarction, path-physiology of shock, syncope</p>

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
									<p>and heart failure</p> <p>41. Discuss lung volume and capacities compliance, ventilation, V/P ratio diffusion capacity of lungs transport respiratory gases, Oxygen and carbon dioxide.</p> <p>42. Discuss the path-Physiology of dyspnoea, hypoxia, cyanosis asphyxia, periodic breathing</p> <p>43. Describe the physiological basis of hemostasis and, anticoagulants. Describe bleeding &amp; clotting disorders (Hemophilia, purpura) BT, CT</p> <p>44. ESR PCV</p> <p>45. RBC Indices</p> <p>46. Effect of exercise on blood pressure</p> <p>47. Clinical Examination of Abdomen</p>
Physiology	4. Dr. Mamta M.Sc., PhD Registration not applicable	Professor As Prof. 10/08/2021	Permanent	Associate Professor, MGMCH, Jaipur from19/11/2015 to 09/08/2021	Associate Professor, MGMCH, Jaipur from19/11/2015 to 09/08/2021	Associate Professor, MGMCH, Jaipur from19/11/2015 to 09/08/2021	Associate Professor, MGMCH, Jaipur from19/11/2015 to 09/08/2021	Professor, MGMCH, Jaipur 10/08/2021 to Continued	<p>1. Describe the composition and functions of blood components</p> <p>2. Describe the composition and functions of blood components</p> <p>3. Discuss the origin, forms, variations and functions of plasma proteins</p> <p>4. Discuss the origin, forms, variations and functions of plasma proteins</p> <p>5. Describe and discuss the synthesis and functions of Haemoglobin and explain its breakdown. Describe variants of haemoglobin</p> <p>6. Describe and discuss the synthesis and functions of Haemoglobin and explain its breakdown. Describe variants of haemoglobin</p> <p>7. Describe RBC formation (erythropoiesis &amp; its regulation) and its functions</p> <p>8. Describe RBC formation (erythropoiesis &amp; its regulation) and its functions</p>

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
									9. Describe RBC formation (erythropoiesis & its regulation) and its functions 10. Describe different types of anaemias & Jaundice 11. Describe RBC formation (erythropoiesis & its regulation) and its functions 12. Describe different types of anaemias & Jaundice 13. Describe different types of anaemias & Jaundice 14. Describe WBC formation (granulopoiesis) and its regulation 15. Describe WBC formation (granulopoiesis) and its regulation 16. Describe the formation of platelets, functions and variations. 17. Describe the formation of platelets, functions and variations. 18. Describe the physiological basis of hemostasis and, anticoagulants. Describe bleeding & clotting disorders (Hemophilia, purpura) 19. Describe the physiological basis of hemostasis and, anticoagulants. Describe bleeding & clotting disorders (Hemophilia, purpura) 20. Describe the physiological basis of hemostasis and, anticoagulants. Describe bleeding & clotting disorders (Hemophilia, purpura) 21. Describe different blood groups and discuss the clinical importance of blood grouping, blood banking and transfusion 22. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of thyroid gland

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
									23. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of thyroid gland 24. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of parathyroid gland, Describe the physiology of bone and calcium metabolism 25. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of pancreas Describe function tests:\ pancreas Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of pancreas Describe function tests: pancreas 26. Discuss plasma protein, Haemoglobin, Hemostasis 27. Discuss the physiological action and effect of altered (hypo and hyper) secretion of pituitary gland , thyroid gland, parathyroid gland, adrenal gland & pancreas 28. RBC Counts 29. WBC Counts 30. Blood Pressure 31. ECG 32. Motor system
Physiology	1. Dr. Brajpal Singh Tanwar RMC-021941 RMC-12947	Associate Professor As Assoc. Prof. 11/01/2020	Permanent	Assistant Professor MGMCH, Jaipur from 04/02/2015 to 10/01/2020	Assistant Professor MGMCH, Jaipur from 04/02/2015 to 10/01/2020	Assistant Professor MGMCH, Jaipur from 04/02/2015 to 10/01/2020	Assistant Professor MGMCH, Jaipur from 04/02/2015 to 10/01/2020  Associate Professor MGMCH, Jaipur from 11/01/2020 to Continued	Associate Professor MGMCH, Jaipur from 11/01/2020 to Continued	1. Describe and discuss physiological consequences of sedentary lifestyle and Discuss the physiological effects of meditation 2. Describe physiology of Infancy 3. Describe and discuss physiology of aging: free radicals and antioxidants Discuss the concept, criteria for diagnosis of Brain death and its Implications

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
									4. Describe the mechanism of temperature regulation 5. Describe and discuss adaptation to altered temperature (heat and cold) 6. Discuss & compare cardio-respiratory changes in exercise (isometric and isotonic) with that in the resting state and under different environmental conditions (heat and cold) 7. Describe and discuss mechanism of fever, cold injuries and heat stroke 8. DLC 9. Pulse 10. Spirometry 11. Clinical Examination of Respiratory System 12. Sensory System
Physiology	2. Dr. Shikha Mathur M.Sc., PhD Registration not applicable	Associate Professor	Permanent	Associate Professor MGMCH, Jaipur from 01/09/2012 to 31/08/2017	-	-	-	Associate Professor MGMCH, Jaipur from 15/02/2021 to Continued	1. Describe female reproductive system: functions of ovary and its control 2. Describe female reproductive system: menstrual cycle - hormonal, uterine and ovarian changes 3. Describe and discuss the physiological effects of sex hormones 4. Describe and discuss the physiology of pregnancy, parturition & lactation and outline the psychology and psychiatry-disorders associated with it. 5. Discuss the physiological basis of various pregnancy tests Enumerate the contraceptive methods for male and female. Discuss their advantages & disadvantages 6. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of pancreas Describe function tests: pancreas

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
									7. Describe the synthesis, secretion, transport, physiological actions, regulation and effect of altered (hypo and hyper) secretion of pancreas Describe function tests: pancreas 8. Discuss the hormonal changes and their effects during perimenopause and menopause Discuss the common causes of infertility in a couple and role of IVF in managing a case of infertility 9. Describe male reproductive system: functions of testis and control of spermatogenesis & factors modifying it and outline its association with psychiatric illness 10. Describe and discuss puberty: onset, progression, stages; early and delayed puberty and outline adolescent clinical and psychological association. 11. Describe and discuss sex determination; sex differentiation and their abnormalities and outline psychiatry and practical implication of sex determination. 12. Discuss puberty, spermatogenesis and function of testosterone 13. Discuss menstrual cycle contraceptive methods pregnancy tests
Physiology	1. Dr. Ruchi Agrawal RMC-35794 RMC-16579	Assistant Professor As Asst. Prof. 01/01/2019	Permanent	Demonstrator MGMCH, Jaipur from 01/09/2017 to 31/12/2018	Demonstrator MGMCH, Jaipur from 01/09/2017 to 31/12/2018 Assistant Professor, MGMCH, Jaipur from 01/01/2019 to Continued	Assistant Professor, MGMCH, Jaipur from 01/01/2019 to Continued	Assistant Professor, MGMCH, Jaipur from 01/01/2019 to Continued	Assistant Professor, MGMCH, Jaipur from 01/01/2019 to Continued	1. Describe the functional anatomy of Gastro intestinal tract 2. Describe the composition, mechanism of secretion, functions, and regulation of saliva secretion 3. Describe the composition, mechanism of secretion, functions, and regulation of gastric secretion 4. Describe the composition, mechanism of secretion, functions, and regulation of

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
									gastric secretion 5. Describe the composition, mechanism of secretion, functions, and regulation of pancreatic and intestinal juices. 6. Describe GIT movements, regulation and functions. 7. Describe defecation reflex. Explain role of dietary fibre. 8. Describe the physiology of digestion and absorption of nutrients 9. Describe the source of GIT hormones, their regulation and functions 10. Describe the Gut-Brain Axis 11. Discuss composition & function of saliva gastric pancreatic, intestinal and bile secretion 12. Properties of Cardiac Muscle
Physiology	2. Dr. Manu Saini RMC-020447 RMC-20387	Assistant Professor	Permanent	-	-	Senior Resident, SMS Medical College, Jaipur from 26/09/2019 to 25/09/2020 & 19/12/2020 to 11/12/2020	Senior Resident, SMS Medical College, Jaipur from 26/09/2019 to 25/09/2020 & 19/12/2020 to 11/12/2020	Assistant Professor, MGMCH, Jaipur from 19/12/2020 to Continued	1. Describe the structure and functions of a neuron and neuroglia; Discuss Nerve Growth Factor & other growth factors/cytokines Describe the types, functions & properties of nerve fibers 2. Describe the structure and functions of a neuron and neuroglia; Discuss Nerve Growth Factor & other growth factors/cytokines Describe the types, functions & properties of nerve fibers 3. Describe the degeneration and regeneration in peripheral nerves 4. Describe the degeneration and regeneration in peripheral nerves 5. Describe the structure of neuro-muscular junction and transmission of impulses, Discuss the action of neuro-muscular blocking agents 6. Describe the structure of neuro-muscular junction and transmission of impulses, Discuss the action of neuro-muscular blocking agents

Department	Name of the Faculty Qualification IMR Number	Current Designation & Date of Promotion	Nature of Employment Regular/ Permanent or Contract/ Outsourced	Details of Service in the last 5 Years					Number of Lectures taken/year. Topics Covered
				1	2	3	4	5	
									7. Discuss the action of neuro-muscular blocking agents Describe the pathophysiology of Myasthenia gravis, 8. Describe the different types of muscle fibres and their structure, Describe action potential and its properties in different muscle types (skeletal ) 9. Describe the different types of muscle fibres and their structure, Describe action potential and its properties in different muscle types (skeletal ) 10. Discuss the action of neuro-muscular blocking agents Describe the pathophysiology of Myasthenia gravis, 11. Discuss Neuro-muscular junction transmission of impulses. Pathology of myasthenia Gravis Molecular basis of muscle contraction
Physiology	3. Dr. Md. Sabir Hussain BMC-35142 MCI-17-24988	Assistant Professor	Permanent	Tutor, Kanti Devi Medical College, Hospital & Research Center, Mathura from 25/08/2017 to 14/05/2018	Assistant Professor, Kanti Devi Medical College, Hospital & Research Center, Mathura from 15/05/2018 to 01/08/2019	Assistant Professor Madhubani Medical College, Madhubani, Bihar from 02/08/2019 to 08/02/2021	Assistant Professor Madhubani Medical College, Madhubani, Bihar from 02/08/2019 to 08/02/2021	Assistant Professor, MGMCH from 09/02/2021 to Continued	1. Describe the role of renin-angiotensin system 2. Describe the mechanism of urine formation 3. Describe the mechanism of urine concentration and diluting mechanism 4. Describe & discuss the significance & implication of Renal clearance 5. Describe the renal regulation of fluid and electrolytes & acid-base balance 6. Describe & discuss the significance & implication of Renal clearance 7. Describe the mechanism of urine concentration and diluting mechanism 8. Describe the renal regulation of fluid and electrolytes & acid-base balance 9. Describe the renal regulation of fluid and electrolytes & acid-

1. Publications by faculty should be attached as annexure.
2. Publications should be quoted in Vancouver referencing style.
3. Medical Educator Training/ research methodology and dates

\*To be updated every new session/academic year

\*\*To be updated on 1<sup>st</sup> October each year

**ANNEXURE-1**

S. No.	Faculty Name	Publication in Vancouver referencing style	Pubmed Indexed Yes/No	Scopus Yes/No
	<b>Department of Anatomy</b>			
1	Dr. Jagmohan Sharma	Distribution of follicular dendritic cells in normal and infected appendix by immunohistochemistry” International Journal of medical research professionals (IJMRP) (Accepted)	No	No
2	Dr. Pankaj Singh	NIL	No	No
3	Dr. Prabhjot Kaur Chhabra	Kumar, J. M., Kaur, C. P., & Kumar, A. M. (2021). Lingual Nerve Course and Its Communication with Hypoglossal Nerve: Variations in Cadavers in Western India. International Journal of Health and Clinical Research, 4(5), 117–122.	No	No
4	Dr. Rajeev Choudhary	A Cross Sectional Analysis of Correlation of Heart Diameter and Cardio-Thoracic Ratio with Body Habitus for Evaluating Cardiac Enlargement: An Institutional Based Study, International Journal of Health and Clinical Research, 2021;4(15):1-3.	No	No
5	Dr. Meenakshi Singhal	NIL	No	No
6	Dr. Santosh Kumar	“Estimation of stature of an individual from forearm length in adults: An anthropometric study.” “Histological effects of radiations and combined effect of 2G mobile phone radiations with turmeric (curcuma longa) on Leydig cells of testis in albino rats”. Distribution of follicular dendritic cells in normal and infected appendix by immunohistochemistry” International Journal of medical research professionals (IJMRP) (Accepted)	No	No
7	Dr. Rati Tandon	Morphometric analysis of foramen magnum region in adult Indian population. Dr. Shishirkumar C Naik, Dr. Rati Tandon, Dr. bShivarama CH, Dr. HaseebAman, Dr Prakash HarishchandraThumbs sign: measurement of angle to which the thumb is rotated to stage obesity.	No	No
8	Dr. Nahid Yasmin	Histopathological Changes in the Kidney of Albino Rat due to Chromium and the Ameliorative Role of $\alpha$ -Tocopherol. Journal of Clinical and Diagnostic Research. 2021 Nov, Vol-15(11): AC05-AC08.	No	No
9	Dr. Abhilasha Maharshi	“Hormone Markers of Pituitary Adenomas: An Immunohistochemical Study,” IJMSAR – August – 2021, Vol. – 4, Issue - 4, P. No. 01-15. Distribution of follicular dendritic cells in normal and infected appendix by immunohistochemistry” International Journal of medical research professionals (IJMRP) (Accepted)	No	No
	<b>Department of Physiology</b>			
1	Dr. Aparna Garg	The impact of COVID 19 Pandemic and Lockdown on Anxiety in the Elderly population A cross sectional study	No	No
2	Dr. N. D. Soni	NIL	No	No
3	Dr. Manish Lamoria	NIL	No	No
4	Dr. Mamta	To Study the relation between body mass index and mensrtual problems and their effect on AVRT in young females. International Journal of Scientific Research 2021; 10:1-3	No	No
5	Dr. Brajpal Singh Tanwar	NIL	No	No
6	Dr. Shikha Mathur	NIL	No	No
7	Dr. Ruchi Agrawal	To Study the relation between body mass index and mensrtual problems and their effect on AVRT in young females. International Journal of Scientific Research 2021 ; 10:1-3	No	No

8	Dr. Manu Saini	To Study the relation between body mass index and mensrtual problems and their effect on AVRT in young females. International Journal of Scientific Research 2021; 10:1-3	No	No
9	Dr. Md. Sabir Hussain	A study on effect of smart phone usage on cardiovascular and haematological parameters in adult population. International Journal of Health and Clinical Research 2021; 4(20):225-229 Histopathological changes in the kidney of albino rat due to chromium and the ameliorative role of $\alpha$ -tocopherol. Journal of Clinical and Diagnostic Research, 2021 Nov, Vol 15(11), AC05-08.	No	No
<b>Department of Biochemistry</b>				
1	Dr. G S Gupta	NIL	No	No
2	Dr. Bushra Fiza	Evaluation of serum Homocysteine levels in association with Lipid Profile in patients with Polycystic Ovary Syndrome Paripex Indian J of Research, 2020, 9(10): 32-35 Study of serum homocysteine level in patients with chronic kidney disease and its association with renal function and serum albumin Study of Albumin, Calcium and Albumin Corrected Calcium with Severity Of Acute Pancreatitis Study of Impaired Glucose Tolerance and HbA1c in Acute Pancreatitis on the Basis of Severity Study of Serum Lactate Levels in Patients with Sepsis on the Basis of Survival and Non-Survival Evaluation of Serum Procalcitonin Levels on the Basis of Severity of Sepsis Evaluation of Brain-Natriuretic Peptide and Its Association with Lactate Levels In Congestive Heart Failure Patients Study of Brain-Natriuretic Peptide, Lactate Levels and Blood Pressure in Patients with Congestive Heart Failure Study of Lipid Profile in Patients with Chronic Liver Disease International Journal of current advanced research.2020 2319-6475, 23196505	Yes	No
3	Dr. Ravi Kant Soni	Study of Lipid Profile in Patients with Chronic Liver Disease International Journal of current advanced research.2020 2319-6475, 23196505	Yes	No
4	Dr. Sunita Singh	NIL	No	No
5	Dr. Jai Prakash	Study of Brain-Natriuretic Peptide, Lactate Levels and Blood Pressure in Patients with Congestive Heart Failure International Journal of Scientific Research. 2021;10(9);1-2 Print ISSN No. 2277 - 8179   DOI : 10.36106/ijsr	No	No
6	Dr. Arun Kumar	Study of Albumin, Calcium and Albumin Corrected Calcium with Severity Of Acute Pancreatitis Study of Impaired Glucose Tolerance and HbA1c in Acute Pancreatitis on the Basis of Severity	No	No
7	Dr. Jaishree Choudhary	Study of Lipid Profile in Patients with Chronic Liver Disease International Journal of current advanced research.2020 2319-6475, 23196505	Yes	No
<b>Department of Pharmacology</b>				
1	Dr. Anusha Vohara	Inhibitors – A Systematic Review of Their Extra-Glycemic Benefits and Safety Profile. J Evid Based Med Health C 2021;8(22):1868-74.	No	No
