

1.1.1 CURRICULA DEVELOPED AND IMPLEMENTED HAVE RELEVANCE TO THE LOCAL, NATIONAL, REGIONAL AND GLOBAL HEALTHCARE NEEDS WHICH ARE VISIBLE IN PROGRAMME OUTCOMES (POs), AND COURSE OUTCOMES (COs) OFFERED BY THE UNIVERSITY, AS PER THE NORMS OF THE REGULATORY BODIES

Metric Number	Parameter	Page No
1.1.1	Outcome analysis of POs, COs	02

ACADEMIC YEAR 2022-23

Outcome analysis of POs and COs

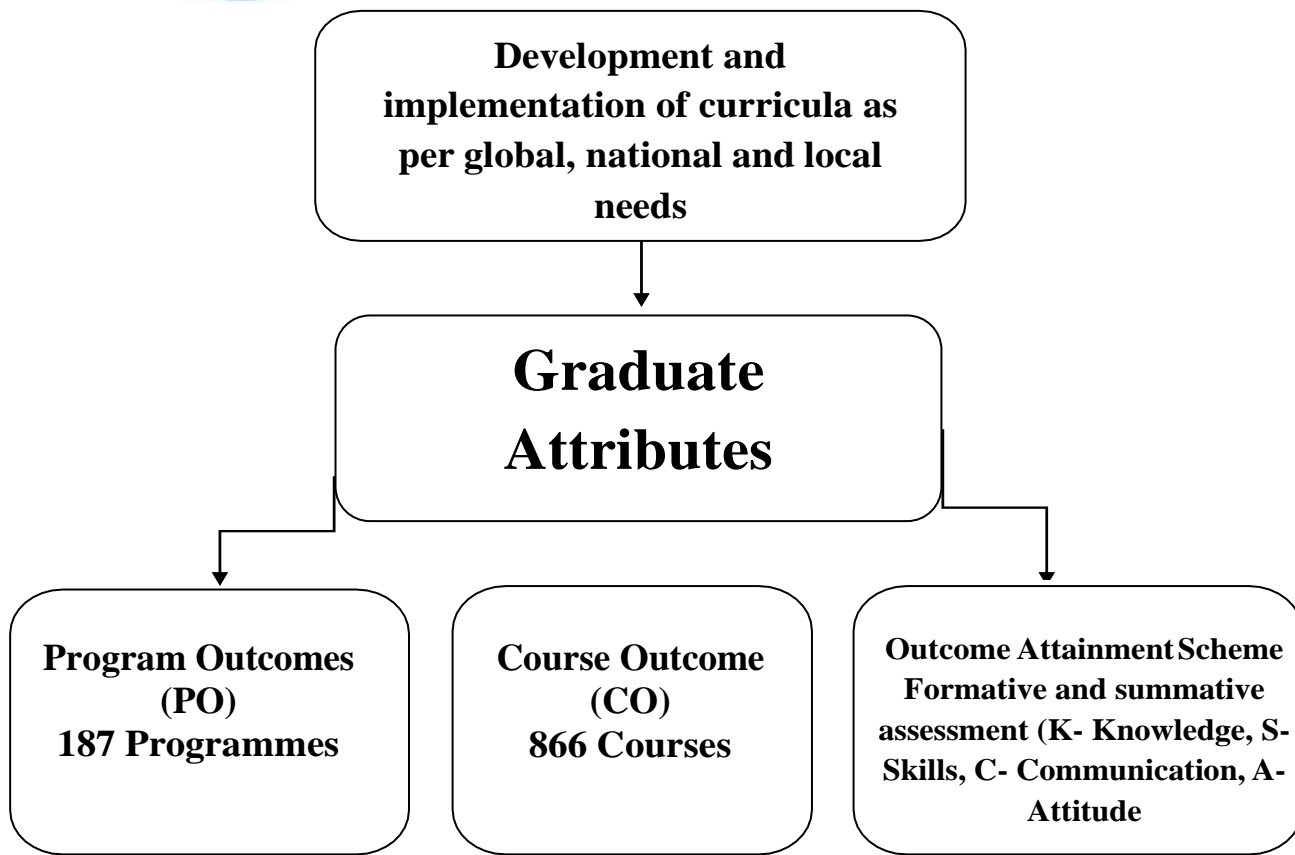

- The Institute has clearly stated program outcomes (POs), and course outcomes (COs) for its all-academic programmes and courses department wise.
- The Faculty and students are made aware of the learning outcomes at beginning of academic session.
- Course outcomes and objectives are printed in syllabus of each subject.
- The course outcomes are mapped to the programme outcomes.
- Analysis of Program outcomes is achieved by evaluation methods- formative and summative assessment.
- Log books are maintained by the students.
- The students and teachers are provided with academic calendar wherein planning is done for the entire curriculum, providing all the learning objectives and outcomes at various levels.
- The faculty is trained about teaching and learning objectives and outcomes in their training programmes conducted by MEU.
- The College regularly monitors the performance of the students in internal examinations, viva-voce, and University examinations.
- At the University level IQAC has apex role in monitoring, and reforming all the strategies related to teaching learning and assessment.
- Extra/remedial classes for slow learners are conducted by each department.
- The Institution has a well- structured feedback mechanism system in place. The feedback is obtained from all the stakeholders like students, teachers, Employers, Alumni and professionals regarding curriculum and the teaching learning assessment of each department etc.
- Critically evaluating the quality and impact of its own work during and after its implementation is a part of organizational strategy. The feedback received is analyzed at the departmental level and central level. After analysis, corrective actions are initiated and constantly monitored.
- Both direct and indirect methods of assessment of learning outcomes are being implemented. The direct methods include tests, presentations, lab work, student projects, seminars, Problem- Based-Learning, Journal clubs, quizzes, assignments, portfolios,
- logbook for students' work, competitive exams, multiple choice questions (MCQs), objective structured clinical examination (OSCE), short and long case assessment, simulators, peer assessment etc. The indirect method includes surveys, such as feedback from students, employer or alumni, job placement rates, self- evaluations.
- The institution has formulated course outcomes to make the students more competent with respect to all domains of learning (Cognitive, Affective and Psychomotor domains). Accordingly, their learning assessment is conducted in form of formative at department level and summative at the university level.

The curricula developed and implemented have relevance to Local, Regional, National and Global healthcare needs leading to well defined graduate attributes:

Graduate Attributes:

- Dynamic Professionalism
- Exemplary Leadership
- Communication Skills
- Scholarly Attitude
- Element of Critical Thinking
- Enthusiasm for Research
- Social Commitment
- Global Competencies

The summative assessment is conducted at the university level which includes written & practical examination. The students' achievement is categorized into,

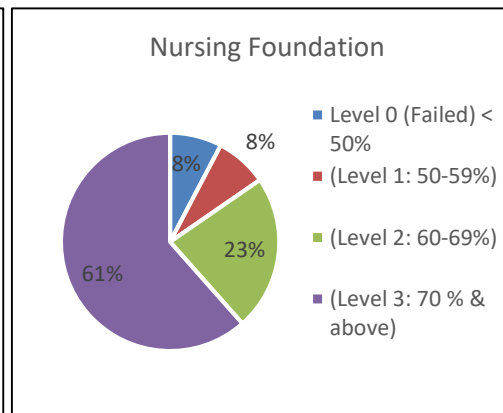

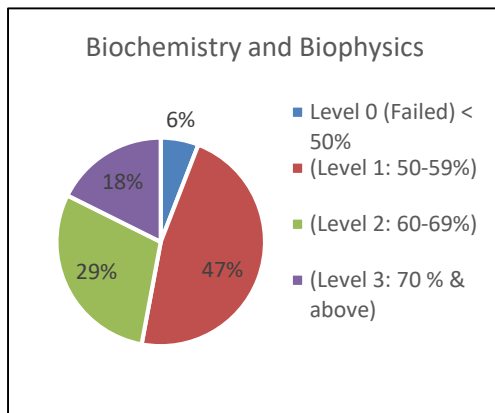

Levels	Percentage	Attainment of Outcomes
Level 0	Below 50% (Failed).	Unable to acquire all competencies (COs) of the respective course
Level 1	50-59%	Have acquired all competencies (COs) of the respective course
Level 2	60-69%,	
Level 3	70% and above

ACADEMIC YEAR 2021-22

Outcome analysis of POs and COs

- The Institute has clearly stated program outcomes (POs), and course outcomes (COs) for its all-academic programmes and courses department wise.
- The Faculty and students are made aware of the learning outcomes at beginning of academic session.
- Course outcomes and objectives are printed in syllabus of each subject.
- The course outcomes are mapped to the programme outcomes.
- Analysis of Program outcomes is achieved by evaluation methods- formative and summative assessment.
- Log books are maintained by the students.
- The students and teachers are provided with academic calendar wherein planning is done for the entire curriculum, providing all the learning objectives and outcomes at various levels.
- The faculty is trained about teaching and learning objectives and outcomes in their training programmes conducted by MEU.
- The College regularly monitors the performance of the students in internal examinations, viva-voce, and University examinations.
- At the University level IQAC has apex role in monitoring, and reforming all the strategies related to teaching learning and assessment.
- Extra/remedial classes for slow learners are conducted by each department.
- The Institution has a well- structured feedback mechanism system in place. The feedback is obtained from all the stakeholders like students, teachers, Employers, Alumni and professionals regarding curriculum and the teaching learning assessment of each department etc.
- Critically evaluating the quality and impact of its own work during and after its implementation is a part of organizational strategy. The feedback received is analyzed at the departmental level and central level. After analysis, corrective actions are initiated and constantly monitored.
- Both direct and indirect methods of assessment of learning outcomes are being implemented. The direct methods include tests, presentations, lab work, student projects, seminars, Problem- Based-Learning, Journal clubs, quizzes, assignments, portfolios,
- logbook for students' work, competitive exams, multiple choice questions (MCQs), objective structured clinical examination (OSCE), short and long case assessment,
